With vibrant, involved members, we are growing and planting new churches.

Priorities for 2009-2010

Building on the rich prayer heritage of Otter Creek, we will be even more intentional in incorporating prayer as critical challenges are faced by the body.

Create new models for providing increased opportunities for spiritual growth through Bible studies.

Increase the number of members involved in ministry and service.

Provide a holistic support ministry to address spiritual, financial and emotional stresses.

Recognizing that relationships are critical to spiritual growth, significantly increase life group involvement.

Increase opportunities for ministry through increased giving and debt reduction.
